CYS Services programs participate in the Child and Adult Care Food Program (CACFP) and must serve meals/snacks meeting the CACFP requirements. Food substitutions may be made only when supported by a medical physician/health care professional. The medical physician must specify, in writing, the food to be omitted from the participant's diet and the food or choice of foods that may be substituted to meet your child/youth's nutritional requirements.

**CACFP DOES NOT REQUIRE** participating programs to provide food substitutions for children based on religious preferences but does allow such variation as long as appropriate substitutions are made. Army policy allows programs to provide special diet requirements for religious reasons. In order for Army CYS Services programs to honor parents' special requests, patrons who request food substitutions for religious reasons are required to have a statement from a representative of their religious institution on file.
